Arden Coher joined the MJ team in 2001 as a risk management consultant in our Risk Management + Commercial Insurance department. Today, Arden works as a client executive, specializing in manufacturing, real estate, nonprofits, and service industries. With over 40 years of experience within the insurance industry, Arden leverages his expertise to develop and execute strategies that create better, smarter, and more successful organizations.

Working closely to understand each client's business, risk exposure, and corporate goals and objectives, Arden and his team aim to design risk management programs that are tailored to each client's unique industry needs. By focusing on alignment, he and his team work to ensure that MJ's clientele receive the best possible risk management solutions.

Prior to working at MJ, Arden worked for a major national insurance carrier for 24 years in various roles ranging from field client service to regional executive. Arden's extensive carrier-side experience allows him to possess a unique perspective on risk management solutions, which gives his clients a competitive edge.

Outside of MJ, Arden has a passion for the outdoors and loves to spend time canoeing, portaging, backpacking, skiing, and hanging out by the lake. Not many people know that Arden also enjoys cooking and is pretty handy in the kitchen.
