Mollie Johnson joined the MJ team as an assistant account manager in the Benefits Consulting department. Mollie was quickly promoted to the role of an account manager and subsequently to a senior account manager, team lead. In her current leadership position, Mollie provides guidance to her team in developing and maintaining client healthcare and benefits strategies. To this end, she collaborates closely with the analytics, wellness, compliance, and communication teams to ensure the effective execution of these strategies.

Furthermore, Mollie is accountable for preparing custom client materials, advocating on the client's behalf, and assisting in the marketing and renewal process for new and existing clients. Additionally, she fosters productive relationships with carriers, TPAs, and vendor personnel.

Mollie's prior experience enables her to use a data-driven approach to create effective strategies that truly help her clients. She is dedicated to empowering them with the tools they need to succeed and overcome any challenges they may face. Her commitment to exceptional client experience makes her an immense value to our team.

Outside of the office, Mollie can be found playing sand volleyball, tennis, and participating in yoga, spin, or hiking. She hopes to one day travel overseas and explore what the rest of the world has to offer.
