Dale Stamper joined the MJ team in 2006 as a marketing coordinator in our Benefits Consulting department. Over the years, she has taken on the role of senior account manager and now leads a team that provides comprehensive benefits, health and wellness, and compliance services to our clients.

Dale is responsible for managing the day-to-day needs of our employee benefits clientele, as well as overseeing the marketing and renewal process for new and existing accounts. She and her team work to maximize employee benefits by effectively evaluating, analyzing, planning, and managing benefits strategies for organizations.

With over 20 years of industry experience, Dale is an expert in marketing and carrier negotiation, contract review, and plan analysis. Her knowledge and expertise enable her to address the needs of our clients effectively, making her an invaluable member of our team.

When Dale is not hard at work problem-solving on her client's behalf, she is probably spending time with her four grandchildren. Dale's biggest aspiration is to travel more often!
