Marcia Woldahl joined the MJ team in 1996 as an account manager in our small business practice group and has since assumed the role of surety service representative on the Surety team within our Risk Management + Commercial Insurance department. In her role, Marcia gathers valuable information and helps calculate premiums for both our surety clients and underwriters, ensuring that all documentation meets underwriting standards. Marcia is committed to finding the best options for our clients while playing a vital role in processing bonds.

With more than 30 years of insurance experience, Marcia leverages her deep expertise in the manufacturing and construction industry sectors to deliver tailored surety strategies that address industry-specific risks and regulatory requirements. Additionally, she loves that she is able to use her expertise and experience in the industry to mentor more recent members of MJ's team.

When Marcia isn't working hard at MJ, she loves to be outside. From working in her flower beds to volunteering her services as a dog walker for the Humane Society for Hamilton County, she finds many ways to enjoy the sunshine! With a passion for photography, Marcia tends to lag behind while hiking with her family in order to capture moments in time. She also loves to visit her mother in Florida and hopes to retire in the sunny state one day.
