Magazine

Douglas “Doug” Prince is a retirement plan advisor and CEO of MJ Retirement. Doug has been advising institutional retirement plan sponsors since 1990. His team was formed in 1998, specializing in servicing 401(k), 403(b), and other corporate retirement plans, supporting employers in their efforts to improve the financial outcomes of their workforce. Now a part of The MJ Companies, Doug and his team manage retirement plans and financial wellbeing programs—working with employers to make strategic decisions to improve financial outcomes.

Doug has led his team to be recognized as the Top Retirement Plan Advisor Team in 2010 by PLANSPONSOR magazine and has consistently been recognized as one of the top Defined Contribution Plan Advisors in the country by the National Association of Plan Advisors.

When not supporting retirement plan clients and participants, he enjoys grilling with his wife, traveling with his twins, Conner and Meghan, and dabbling in the occasional wine tasting
