Robotic Process Automation
Microsoft Power Automate
Automation Solutions Design

PHILANTHROPY

Special Olympics Indiana

Noah Chopp joined the MJ team as a data analytics intern in our Risk Management + Commercial Insurance department. After graduating from Butler University, he joined the team full-time as a data integration analyst. Currently, he holds the position of senior RPA developer in our Enterprise Data department. In this role, Noah assists in driving new solutions for how we collect, evaluate and analyze data to make tactical and strategic recommendations regarding business issues. He works across our teams to identify automation opportunities that will allow our teams to focus on delivering an exceptional customer experience .

Prior to MJ, Noah worked as an actuarial intern, where he performed model updates and created a standardized process for impact analysis. Throughout his career, Noah has cultivated a data-driven mindset and a strong interest in designing automated processes to simplify data pipelines, which makes him a valuable asset to the MJ team.

Outside of MJ, Noah enjoys exploring the local coffee scene in Indianapolis, usually with his current book on hand. When the weather allows, Noah also plays disc golf with friends.
