Samantha "Sami" Schnepf joined the MJ team as an account manager in the Benefits Consulting department. Sami has quickly worked her way up the ladder and now serves our clients as a client executive. In this role, Sami works to provide comprehensive benefits, health and wellness, and compliance services to clients. Along with servicing the daily needs of our clientele, Sami serves as the internal conduit or "quarterback" between analytics, wellness, communication, and compliance to ensure all teams within the Benefits Consulting department work seamlessly to execute personalized client strategies.

Prior to MJ, Sami was the director of launch for Remodel Health. In this role, she assisted HR directors and CFOs, guiding them through the onboarding process for individual benefits and software platforms related to benefits. Sami's commitment to delivering exceptional customer support and guidance is one of the many reasons why she is a valuable asset to the MJ team.

When not in the office, Sami can be found spending quality time with her family, friends, and, of course, her two Golden Retrievers. Whether she's jamming out at a concert or curating the perfect playlist for her daily McDonald's run (seriously, their fountain Coke is unbeatable), Sami knows how to live life to the fullest.
