"You'll miss the best things if you keep your eyes shut." - Dr. Seuss

Demi Shaffer joined the MJ team as a client advocate in our Benefits Consulting department. In her role, Demi supports our account managers and client executives to deliver an exceptional client experience. Demi provides day-to-day support to our clients, ensuring accuracy in policy information and preparing renewal information.

Prior to MJ, Demi grew her professional experience through her role as associate district manager with ADP. In this role, Demi realized her passion for client experience and finding unique solutions that ultimately drive client success. She was responsible for working with existing clients and tailoring the platform to better align with their specific business requirements. This solutions-driven, client-centric mindset is what makes Demi an invaluable member of our team.

Outside of work, Demi enjoys staying active, traveling, and spending quality time with friends and family. One day, Demi hopes to travel to Australia!
