FAVORITE QUOTE

"Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time." Thomas Edison

Angela (Angie) Lynch assumed the role of client executive within our Risk Management + Commercial Insurance department. With over a decade of hands-on experience on the carrier side, Angie has seamlessly evolved into her current role as a client executive. In her role, Angie plays a pivotal role as the internal conduit between the analytics, risk services, risk transfer, and client advocacy teams. With a keen focus on creating tailored solutions, she ensures the seamless integration of comprehensive plan design.

Prior to MJ, Angie honed her skills at organizations such as CNA and Travelers. Her in-depth knowledge of the underwriting, claims, and loss control processes, along with her experience in risk management strategy, uniquely positions her to expertly align her client's overall business goals to their risk management programs and strategies. Leveraging her unique background, Angie and her team help clients become more productive risk management organizations, all while aiming to reduce their total costs of risk.

Outside of work, Angie finds immense joy in tending to her garden, where she connects with nature and unwinds after a busy week. When she isn't gardening or curled up with a good book, she embraces her adventurous side through scuba diving! Angie is a pro at balancing relaxation and adventure, making the most of her free time.
