## EDUCATION

Southeast Missouri State  
University

## EXPERTISE

Manufacturing  
Transportation

Ben Schmidt assumed the role of a risk management consultant in our Risk Management + Commercial Insurance department upon joining the MJ team. In his role, Benjamin is responsible for acquiring new clients, nurturing relationships, and expertly executing tailor-made risk management strategies for our commercial clients. Ben helps business owners and corporate officers develop and implement cost-effective insurance and risk management solutions centered around their overall business goals and objectives.

Prior to MJ, Ben honed his risk management strategy skills as an agent for a captive carrier. During his time, he consulted clients on optimizing insurance and risk management programs. With a genuine passion for client success, Ben is an invaluable asset to both the MJ team and our clients.

Outside of MJ, Ben enjoys staying active whether that be hitting the gym or perfecting his pickleball game. As a former collegiate football player, Ben doesn't steer away from a challenge and hopes to one day climb Mt. Rainer.
