FAVORITE QUOTE

"And those who were seen dancing
were thought to be insane by
those who could not hear the
music," - Nietzsche

John Cochran joined the MJ team in 2023 as a data integrations engineer within our Information Technology (IT) department and has since transitioned to our Enterprise Data department where he was promoted to senior data engineer. With an impressive background in analytics, John plays a pivotal role in our mission to deliver the most cutting-edge solutions to our clients. In his role, John assists with the maintenance of MJ's proprietary analytics platform, APERTURE®, and works closely with our analytics team to ensure that our clients receive the most up-to-date data insights to drive their desired strategies forward.

Prior to MJ, John honed his analytical background at renowned organizations such as Cummins, Accurex, GRUFUNDOS, and most recently, Allegion. Throughout his career, John's passion for transforming raw data to make valuable insights that address our clients' specific industry needs. His commitment to innovation is what makes John a true value-add to the MJ team.

Outside of work, John can be found conquering new heights while rock climbing, perfecting his golf swing on the course or reaching great distances through his cycling journey. John also enjoys practicing self-care by seeking ways to better his physical fitness and unwinding by playing video games.
