Data Analysis
Operational Leadership

Cheryl Reese joined the MJ team as a pharmacy operations specialist within our Benefits Consulting department. With a keen eye for data analysis, Cheryl identifies trends that lead to cost-effective medication solutions while providing comprehensive support and education to our clients. Passionate about enhancing healthcare access, Cheryl collaborates effectively with various team members to ensure seamless integration of pharmacy services for our clients.

Prior to her current role, Cheryl obtained business and leadership experience from various companies, such as Delta Airlines, Multnomah University & Oklahoma Wesleyan University. Channeling that experience, she served as a member of the leadership team that started Cedarville University School of Pharmacy. This work led her to realizing her passion of pharmacy benefit consulting. Cheryl brings with her over a decade of experience in PBM consulting and analytics. Her institutional knowledge and client-centric approach make her a great fit for the MJ team and our clients.

When not at the office, Cheryl enjoys spending time with her family and friends..
