B.S. in Business, Management and Finance - Utah State University

FAVORITE QUOTE

"Fear is a mile wide and an inch deep".

Colten Remington joined the MJ team as a risk management consultant within our Risk Management + Commercial Insurance department. Together with his team, Colten collaborates to design, manage, and implement specialized client risk management programs. His expertise lies in analyzing financial, operational, and compliance risks, empowering clients to make well-informed decisions regarding their risk management strategies, ensuring adherence to regulatory standards, and sustaining long-term stability in a rapidly evolving business landscape.

Before joining the MJ team, Colten worked as a regional financial sales manager for a manufacturing company. In this role, he leveraged his foundation in sales to facilitate business growth in the Midwest region. Colten is passionate about creating value, delivering results, and aligning his personal initiatives with broader business goals, making him an invaluable asset to the MJ team.

Outside of the office, you may find Colten exploring the great outdoors! He enjoys traveling and is always looking for the next spot for a family destination trip. His passions for the outdoors and travel extend to his life goal: founding a non-profit to provide clean water wells in foreign countries.
